

WEEKLY UPDATE

USH 51 PORTAGE

10/22/21

Last week final paving was completed and pavement marking was started.

This week electrical wiring for traffic lights was started at the Dewitt and Wisconsin Street intersection.

Next week punchlist work will begin and traffic lights will be installed. Currently the plan is to open the roadway at the end of business on Friday if all traffic light components arrive as expected. There will be some work in the stage one area next week as well on the centerline yellow lines and painted curb yellow in no parking areas.

Motorists will be encouraged to use the closest side road or alley to access homes and businesses until the roadway is opened up.
